What wellbeing means to us at ABC Private School

Wellbeing at ABC Private School is the practice whereby all children, staff, parents, and members of the community feel safe, secure, and accepted. It is integral to learning and underpins every decision that we make with the hope of creating a healthy, happy, and successful environment for all.

At ABC Private School, we believe that wellbeing takes many forms. Our student cohort comprises of a wide range of individual skills, barriers, and backgrounds. We have inclusive practices across the school which extend beyond acknowledgement of differences and towards a meaningful understanding and appreciation of them. We foster the emotional and social wellbeing of our community by promoting acceptance, tolerance, self-esteem, self-awareness, kindness, and appreciation, while providing the tools required to successfully navigate life within our international society.

We celebrate our differences.

ABC Private School is committed to providing excellent pastoral care for all students, whilst embracing our multicultural environment.

The underpinning ethos of the school is to unlock the potential of every child, and we believe this can only be achieved through the development of a safe and supportive environment, where student care and wellbeing form the foundation of all we do.

We believe that happy and cared for children achieve socially and academically, and as reinforced from our school values since 1999, We never lose sight of developing and nurturing a caring family culture within the school. This approach is reflected in the celebration of students' achievements across academic, creative, sporting, and cultural successes; recognizing that 'student wins' are more than achieving first place. Our pastoral care is built on the foundations of mutual respect and care for one another.

During such unprecedented times, our children can be faced with a variety of scenarios/events in which they need support to navigate through many different feelings.

Our pastoral care ensures that each child's wellbeing and individual physical and emotional needs are supported in close liaison with our parents.
